Mr. Doron Kornbluth
Imagine falling in love with your partner for life. How does it feel? Words can’t describe it; the experience is overwhelming. Part of this sense is simply happiness, joy at finally being with the person you were meant to spend your life with. Imagine feeling that way about yourself…. and your people. Two and a half millennia ago, the leaders of the Jewish people made the conscious decision to shift the center of Jewish life away from spirituality in the
direction of academic scholarship. Since that time, the Jewish people have given priority to the study of Talmud over all else. Why did they do this? What did they sacrifice? What were they hoping to gain? And how does all of this fit with the paradigm of the reemergence of Jewish mysticism over the last few centuries?

What is the connection between the Promised Land and the Jewish nation? Our eminent scholars will help you discover, through the lens of Torah, what gives this land its power -- and its centrality to Judaism and the Jewish people.

CAMERA

Founded in 1982, the Committee for Accuracy in Middle East Reporting in America is a media-monitoring, research and membership organization devoted to promoting accurate and balanced coverage of Israel and the Middle East. A non-partisan organization, CAMERA takes no position with regard to American or Israeli political issues or with regard to ultimate solutions to the Arab-Israeli conflict.

CAMERA on the College Campus

Increasingly, campuses have been the scene of propagandistic assaults on Israel. Distorted literature, extreme speakers and false, inflammatory images are all too common, creating harmful misperceptions of Israel. This hostile environment can be intimidating to students seeking fair and objective information on Middle East issues.

CAMERA provides assistance to students through the CAMERA Campus Activist Project (CCAP) and CAMERA Fellows Program. This includes guidance in finding and connecting with speakers or films, planning and creating events, funding for student groups, and addressing Middle East distortions in campus publications, fliers, rallies and classroom teaching. Students are provided with the support for bravely and publicly defending Israel against hostility and distortions on campus.

CAMERA’s Core Values:

1. An unshakeable belief in the causes of Zionism and Israel
2. The absolute necessity for truth telling regarding Israel and for confronting lies at every turn
3. The truth must be spoken publicly, with knowledge and confidence

“The answer to false speech is not censorship but more true speech. The answer to half-truth is full-truth. The only people who should and do fear CAMERA are those who should and do fear the truth. ... [T]he First Amendment was not erected to help the media but to help the people.”

– Harvard law professor and civil libertarian Alan Dershowitz
